SKILLS

- ❖ Java
- ❖ Html, Css, Bootstrap
- ❖ React JS
- ❖ Spring Boot
- ❖ Angular
- ❖ MySQL, PostgreSQL

EXPERIENCE

- ❖ **Software Engineer Intern | National Informatics Centre, Bhubaneswar (Jan 01/24 – June 30/24)**

Worked with the project team to ensure the quality of various APIs and their integration with the frontend using Spring Boot REST API, focusing on Spring Boot and system design.

EDUCATION

- ❖ Computer Engineering | Centurion University of Technology and Management, Odisha (CGPA: 8.5)
- ❖ XII (CHSE) | Resonance Residential Higher Secondary School (CGPA: 6.8)

INTERNSHIP PROJECTS

- ❖ **Department of Health and Family, Govt of Odisha Dashboard** (Continuing ...)

Developed various APIs and dynamically displayed data using DataTables, leveraging Spring Boot and Thymeleaf. Ensured real-time data updates and interactive visualizations to enhance user experience and data accessibility.

ACADEMIC PROJECTS

- ❖ **Sports Management Website**

I developed a user interface using React.js to provide an interactive and dynamic front-end experience. For the backend, I implemented RESTful APIs using Spring Boot, ensuring efficient data handling and seamless integration with the front-end.

- ❖ **E-commerce Website**

A simple e-commerce website with a persistent cart. Users can remove items, increase or decrease item quantities, and clear all items from the cart. The website is built using the Fake Store API.

- ❖ **My Portfolio Website**

A fully responsive website featuring a homepage, about page, contact page, and a showcase of my projects. It also allows visitors to view my LinkedIn profile, GitHub profile, download my resume, and contact me through a contact form or via email.
